Re: Operations Department Update

OVERVIEW OF PAST MONTH

1. In the past month we have had 2 main line repairs. 1 in Summit Park (see photo) and 1 in the Preserve area.
2. We had 5 tanks cleaned with the goal of cleaning 5 tanks per year. They were in the Colony, Olympic Park and the Silver Summit area's. (see photo)
3. Staff assisted with the customer service team to change out large commercial meters that were old and needed pipe modifications.
4. The new Community Tank project is ongoing with the contractor. They finished up some pipe work in order to fill the tank and get Vail back in service. They continue to work on the base for the tank.

FOCUS FOR NEXT MONTH:

1. Seasonal staff is finished for the season. They inspected 990 hydrants with the goal of 533 per year. They also assisted with leaks and facility maintenance.
2. The Innsbruck pump station upgrades continue with the reorganization of the facility.
3. Old Stone House flow control station upgrades are ongoing. Power conduits were bored under the road for the electrical connection.
4. Pump rebuilds for Lost Canyon pump station.
